House File 46

January 21, 1947.  
Animal Industry.

By BROWN of Monona.

## A BILL FOR

An Act to amend section one hundred sixty-six point one (166.1), Code, 1946, relating to hog cholera virus and serum licenses and permits.

*Be It Enacted by the General Assembly of the State of Iowa:*

- 1 Section 1. Section one hundred sixty-six point one
- 2 (166.1), Code, 1946, is hereby amended by adding at the
- 3 end of sub-section three (3) the following paragraph:
- 4 "c. A regularly licensed pharmacist selling, dispensing
- 5 or distributing such biological products in his professional
- 6 capacity either as a wholesaler or retailer and not engaged
- 7 in the manufacture of biological products."

### EXPLANATION OF H. F. 46

A pharmacist is required by the statutes of Iowa to annually obtain a license from the State Board of Pharmacy and also has had to meet certain educational requirements and take certain examinations and is trained, competent and licensed under the Pharmacy Acts to sell and dispense medicines and drugs for both humans and animals and this extra license fee of \$15.00 and the additional costs of posting a \$5,000.00 bond to sell hog cholera virus and serum for animals under the Acts as an extra license is unwarranted.
